We make it easy for our customers with our automated system which will notify you to book in your next house maintenance service according to your homes individual requirements

ABOUT US

Founded by one of New Zealand's leading weather tightness companies, Prevent was created for the Kiwi home owner's peace of mind.

We exist to ensure that your biggest asset is maintained and protected in order to avoid costly repairs in the future.

Our trained professionals come with over a decade of experience in the weather tightness industry and know their way around every exposable inch of a New Zealand home.

Every home gets the required wash and our special 20 point visual check, focusing on high risk areas which are susceptible to moisture, and their existing condition.

WHY USE US?

Your home is usually your largest asset and yet somehow always gets put at the bottom of the list for maintenance.

Unfortunately the majority of homeowners are in the dark with what is required to keep their cladding & exterior coatings in top condition, not to mention the requirements and recommendations from the manufacturers for warranty purposes.

Prevent offers a comforting solution to ensure that home owners are protected at all times with a specialist wash down and inspection service to suit your homes design and building materials

"Our maintenance specialists are trained in all aspects of building material performance and weathertight identification "we don't just wash and leave".

CONTACT US

Insure to book us in for your annual wash down and inspection service to not only keep your home looking great but for your peace mind.
